Musterstadt, January 2010

Dear Mr. König,

Thank you very much for the successful and very effective solution of my problems. I am now really enjoying my studies once again.
If the marks are right, then this is also possible.

I will be happy to continue using your services.
I would also like to mention that this has also largely relieved the tensions with my parents. This is an additional bonus for me.

Thank you very much once again, until soon
