I would hereby publicly like to thank Mr. Stephan König for his outstanding work with Quantec and he is an expert in his field, which is not always a matter of course in this area, as I know from my own experience.

I became aware of Quantec some time ago, although it did not produce what I had hoped. But I believed in this system, perhaps because I am also an energist, and went searching and found Mr. König - a true king.

In the first month, nothing happened at all, quite the contrary. It was so quiet, quieter than ever. But inside I was so calm, although everyone wanted something from me (money). The next month, which was August, the door opened time after time. Thank God! We had never had such a quiet season when we were not worried about having enough financial reserves.

Finally it came about that we were able to find a place here in the town which we could furnish as we pleased. And I could fulfil a vision, in my own rooms – the Temple of Light.

Our turnover increased over these 6 months by 60 % – 70%, and the frequency to the same extent, so that we can now consider taking on help, even in such times as these!

The turnover between seasons even increased to 100%.
A cooperation was also established with the neighbouring hotel which is also to open between seasons, in the field of basic body care, the cure of the 21st century and improvement of burnout.

We, Eva and Mario Hautz, hereby agree to publication of the consultation.
