Hello Mrs. Brigitte Kraus,

Hello Mr. Stephan König,

Due to the success vibrations, our company has obtained a lucrative order for the fitting out of a detached house from a single source. Initially it was intended to modernise only 1 bathroom, but the plans were gradually extended to the point of general renovation. All the work was coordinated, scheduled and supervised by me as the Construction Manager over a total construction time of 6 months. The customer had only one contact partner at all times, and didn't have to worry about a thing.

For our business, this was like getting 6 numbers in the Lotto. The working climate also improved from day to day, and the performance of my employees was directly apparent.

My initial reservations and increased deteriorations (dismissal of employees) were to be regarded as initial deterioration in homeopathy. In the next phase, things improved steadily.

As a result of this process, I have become a real advocate of Quantec, and also use it in other areas.

We particularly enjoyed the cooperation with Mr. König and Mrs. Kraus, which resulted in much more than a long-term business relationship.

As an employee of the firm of Kai Kobler, I am delighted that due to the positive vibrations, our harmonious working environment has been restored, the invisible negative tensions have been relieved, and that we can again take pleasure in our work.

Gratitude is the memory of the heart,

..... **Mr. Kobler and I wish you a relaxing weekend.**

I hereby agree to publication of the consultation.

Sonnige Grüße

Kai Kobler
