

**Consultation in the field of:  
Professions**

**1. Initial situation:**

In May 2009, the actor Hubertus made contact with me, following a recommendation, and described his situation to me over the telephone, which I can summarise as follows:

- a) Professional: Very few offers were coming in, despite very good academic references.
- b) Financial: Only little money was coming in, not enough to be able to live from this work.
- c) Living: There was a desire to move into a larger, lighter apartment, although this was impossible from the financial point of view.
- d) Personal: The self-image was rather downcast and powerless due to the lack of success.

**2. Objective:**

In the first coaching discussion, we worked out together his desired objective. Hubertus wanted:

- more success as an actor, more offers of parts,
- to earn enough money to live from his chosen career,
- a bright, sunny, larger apartment where he would feel more at home, which would help him when working at home, and which would also allow him to entertain guests.

In his view, this was all being prevented due to the lack of good references and the conviction that he first needed the money in order to get ahead and obtain access to better roles.

We agreed to concentrate mainly on career and finances with Quantec, since this was what Hubertus wanted most.

**3. Implementation:**

From the results of the coaching session, a radionic assessment was produced with the heading "I am completely SUCCESS-FULL in the AUTHENTIC SENSE" (which Quantec confirmed with the best possible response) and approved for treatment after joint discussion.

We remained in regular contact throughout the complete treatment time, in order to measure results and be able to interpret events jointly. Hubertus also took part in the active seminar E-Motion and a personal telephone coaching programme.
